MATATIKA

Move Your Data Hassle-Free

Cut your ETL platform costs by up to 99.4% without compromising performance

Who We Are

Many ETL platforms like Fivetran charge per data row, often inflating costs with no added value. Matatika's cost-based model solves this by charging only for actual infrastructure usage, offering predictable pricing without hidden fees. With 99.99% uptime and expert support, we keep your data moving.

Why Choose Us

Hands-On Expert Support
Quick and direct access to data experts who resolve issues and keep your data flowing.

One Central Platform
Manage all your data in one place with 500+ easy-to-connect sources, no extra tools needed.

Transparent Pricing
Flexible pricing that scales with your business. Pay only for the tools and support you need.

Seamless Migration
Hassle-free transition from your current platform, ensuring zero data disruptions.

Our Solutions

Eliminate Downtime
Avoid costly downtime with our 99.99% uptime and immediate solutions to data flow issues.

Real-Time Insights
Gain instant access to accurate, up-to-the-second data for faster, better-informed decision-making.

Automated Workflows
Save time and improve efficiency by automating routine data tasks, so your team can focus on high-impact work.

Scalable Solutions
Matatika scales with your business, easily managing more data and higher volumes as you grow.

Seamless and Secure
Seamless collaboration with version control and documented workflows keeps your data secure and accessible.
